Lot # _________

ISOMATE® GRB
A MATING DISRUPTION FORMULATION FOR GRAPE ROOT BORER (Vitacea polistiformis) AND CURNANT BORER (Synanthedon tipiformis)

FOR ORGANIC PRODUCTION

ACTIVE INGREDIENTS:
(E-2)-13-Octadec-9-en-1-yl Acetate .............. 78.69 %
(E-2)-13-Octadec-9-en-1-yl Acetate .............. 9.93 %
OTHER INGREDIENTS ....................................... 17.39 %
TOTAL ....................................................... 100.00 %
80.43 mg active ingredients per dispenser

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Avoid contact with skin, eyes or clothing. Harmful if absorbed through skin. Causes moderate eye irritation. After handling, wash thoroughly with soap and water before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID STATEMENT

IF ON SKIN OR CLOTHING:
• Remove contaminated clothing.
• Immediately rinse skin for 15-20 minutes using plenty of water.
• Contact a poison control center or doctor for treatment advice.

IF IN EYES:
• Hold eyes open, slowly and gently rinse with water for 15-20 minutes. If wearing contact lenses, remove contact lenses, then continue rinsing.
• Contact a poison control center or doctor for treatment advice.

HOT LINE NUMBER:
• Have the product container or label with you when contacting a poison control center or doctor, or going for treatment. You can call the poison control center at 1-800-222-1222.
• You may also call Pacific Biocontrol at 1-800-999-8805 for additional information.

ENVIRONMENTAL HAZARDS
For terrestrial uses: Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of this product.

MADE IN JAPAN

NET CONTENTS: 600 Dispenser Units
One dispenser contains 0.004 fl oz or 97.35 mg
Total content of package: 2.25 fl oz or 58.45 g

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.
It is CRITICAL that ISOMATE GRB is applied as directed.

Crops
Grapes including raisins, table, juice and wine grapes. Currents.

Target Pests
Grape root borer (Vitacea polistiformis) and current borer (Synanthedon tipiformis).

Rate
For grapes, use 100 dispensers per acre (0.31 fl oz or 8.04 g a.i. per application). For currents, use 200 dispensers per acre (0.52 fl oz or 9.93 g a.i. per application). Dispensers are to be placed across the treated area in a uniform manner. A higher rate may be applied around the border rows and end plants, i.e. the equivalent of 150-250 dispensers per acre (0.48-1.55 fl oz or 12.06-20.11 g a.i. per application) is suggested. Do not exceed 150 g a.i. (or 1845 dispensers) per acre per year.

Application
In grapes, attach dispensers onto lower training wire, support posts or on the vines themselves in the mid-canopy of the vines. For some training systems, placement above the fruiting zone is sufficient for optimum activity. In currents, attach dispensers to individual canes within the top 6 inches of the cane. Borers can move a considerable distance. Therefore treatment of the entire vineyard or planting is highly recommended. Mating disruption is most successful when large areas or the entire crop area is treated; minimum treatment area is 4 to 5 acres. The larger the treatment area, the better the system works. Treatment needs to be applied for multiple seasons. Mating disruption impacts population dynamics over time and grape root borer has been identified to have a multiple year life cycle over most of its range.

Timing
Apply prior to seasonal emergence for the specific target species of borer species. Monitor with pheromone traps and inspection of host sites. Additional applications are to be based on field scouting for the target pest. Consult your local pest control advisor, university/extension specialist or Pacific Biocontrol representative for proper timing or estimated dispenser longevity in your area.

Note
Isomate GRB suppresses mating of target pest. Immigration of mated female moths of this species from adjacent external sources of infestation will reduce the level of control. Manage by:
• Treatment of all vineyard plantings with Isomate GRB.
• Removal of wild vines from external sources.
• Treatment of pheromone treated vineyards with a federally registered and approved insecticide.
• Cultural practices aimed to reduce grape root borer infestation.

Area-wide application is the most effective. Supplementary applications of insecticide are advised when Isomate GRB is used in vineyards or plantings with high pest populations or adjacent to adjacent, non-mating disrupted vineyards with high pest populations. All pests must be monitored so that timely intervention with insecticides is possible.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage
Store in original unopened package in a dry location at temperatures below 40°F. To prevent contamination with food or feed, store only unopened product packages in cold storage facilities that are used for food or feed.

Pesticide Disposal
Wastes resulting from this product may be disposed of on site or at an approved disposal facility.

Container Handling
Nonrefillable container. Do not reuse or refill this container. Dispose of empty foil packet in the trash.

WARRANTY AND LIMITATION OF DAMAGES
The directions for use of this product are believed to be adequate and must be followed carefully. Pacific Biocontrol Corporation warrants that the product complies with the specifications expressed in this label. To the extent consistent with applicable law, Pacific Biocontrol Corporation makes no other warranties, and disclaims all other warranties, expressed or implied, including but not limited to warranties of merchantability and fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. To the extent consistent with applicable law, Pacific Biocontrol Corporation’s liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Pacific Biocontrol Corporation shall have no liability for damages (special, consequential or incidental) that result from handling, storage and use of this product, which is not in compliance with the label. Use of this product implies all directions of this label have been read carefully. Read all directions carefully.
