

ISOMATE[®] OFM/PTB TT

"Twin-Tube" Design
for even *faster* application

Dual Mating Disruption Technology for Oriental Fruit Moth and Peach Twig Borer

ISOMATE OFM/PTB TT is a dual pheromone dispensing technology for management of both oriental fruit moth and peach twig borer in one easy application. **ISOMATE OFM/PTB TT** uses the same proven technology as our other ISOMATE dispensers. A single application at oriental fruit moth biofix provides long lasting protection against both insects. The Twin-Tube design allows for fast, easy application.

PACIFIC BIOCONTROL CORPORATION

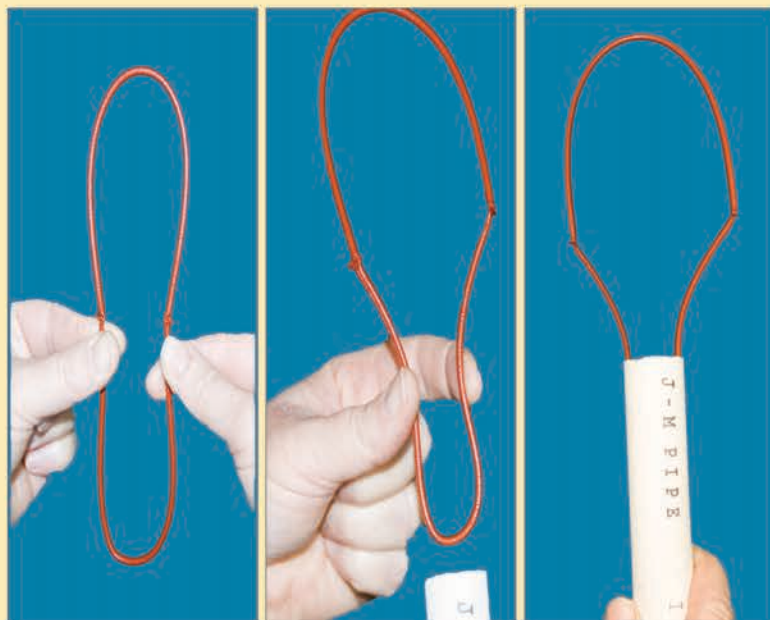

ISOMATE OFM/PTB TT slowly releases pheromone for control of Oriental Fruit Moth and Peach Twig Borer

- High pheromone load rate provides long lasting mating disruption.
- Superior dispensing technology delivers consistent, uniform release rate.
- **No batteries, no programming, no disposal and maintenance free.**
- Twin-tube design for easy, quick application.
- Effective and economical for multiple pests.
- Real-time dispenser analyses available at www.pacificbiocontrol.com.
- Highly trained and experienced staff in mating disruption technology and IPM.
- ISOMATE is the most widely used mating disruption technology in the world.
- Compatible with other control methods.
- Long-term use can successfully reduce insect populations to very low levels.
- Not toxic to bees or beneficial insects and mites.
- No worker re-entry period or pre-harvest interval.
- Provides greater flexibility to schedule thinning, summer pruning and irrigation.
- Residue free.
- No groundwater contamination when used as directed.
- Not affected by rainfall.
- No phytotoxicity.
- **WORRY FREE MATING DISRUPTION!**

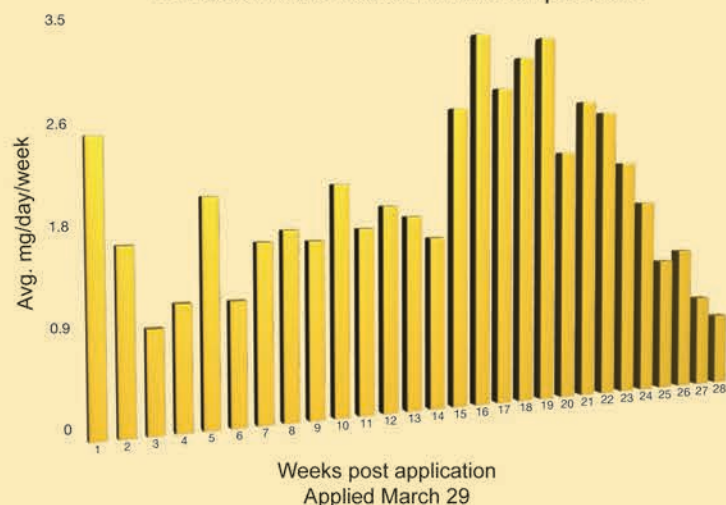

ISOMATE OFM/PTB TT IS FAST AND EASY TO APPLY

ISOMATE OFM/PTB TT can be applied by hand or by simply separating sides and creating a circle, inserting one end of the dispenser into 3/4" PVC pipe of desired length as shown above and then placing it over a lateral branch. For more information on application, please contact your local Pacific Biocontrol representative or consult our website.
